## **PART B: DETAILS OF YOUR VARIATION**

### **Regulation 79 – Side or rear boundary setbacks do not comply**

#### **Step 1. Please provide the details of your variation**

Required building setback \_\_\_\_\_

Proposed building setback \_\_\_\_\_ Proposed wall height \_\_\_\_\_

#### **Step 2. Please provide plans showing overshadowing/overlooking**

#### **Step 3. Please provide reasons to support your request**

**Note:** Council's approval of a variation is determined by its compliance with the Minister's Guidelines. The fields below address each of the decision guidelines that Council must consider in deciding whether to approve or refuse your variation request.

**The objective of Regulation 79 is to ensure that the height and setback of a building from a boundary respects the existing or preferred character and limits the impact on the amenity of existing dwellings**

Please provide your reasoning on how your variation will meet this objective:

- a) **The setback will be more appropriate taking into account the prevailing setback of existing buildings on nearby allotments.**

---

---

---

- b) **The setback will be more appropriate taking into account the preferred character of the area, where it has been identified in the relevant planning scheme.**

---

---

---

- c) **The slope of the allotment and or existing retaining walls or fences reduce the effective height of the building.**

---

---

---

- d) **The building abuts a side or rear lane.**

---

---

---

- e) **The building is opposite an existing wall built to or within 150mm of the boundary.**

---

---

---

- f) **The setback will not result in a significant impact on the amenity of the secluded private open space and habitable room windows of existing dwellings on nearby allotments.**

---

---

---

- g) **The setback is consistent with a building envelope that has been approved under a planning scheme or planning permit and or included in an agreement under section 173 of the Planning and Environment Act 1987.**

---

---

---

- h) **The setback will not result in a disruption of the streetscape.**

---

---

---

- i) **The setback is consistent with any relevant neighbourhood character objective, policy or statement set out in the relevant planning scheme.**

---

---

---

**Step 4. Impacted adjoining property owners must be consulted as part of a Report and Consent Application for this regulation.**

Make sure you complete the 'Details and location of proposed building works' table at the top of the form. You will need to supply the adjoining owner/s with the partially completed comment form and copies of the plans of your proposed building works.

You can contact Ararat Rural City Council Rates Department to obtain owner details for Report and Consent purposes.

We recommend you send the comment form and plans via registered post. You can then provide Council with a copy of what was sent to the adjoining owner and the registered post tracking details as part of your application. This will serve as proof of attempt to consult.

**Note:** The documents must be signed by the legal property owner, tenants are not legal property owners.
